## **DETAILED ACTION**

### ***Drawings***

1. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the hand-written drawings are construed as informal drawings and clear drawings are required. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### ***Information Disclosure Statement***

2. A revised copy of the IDS filed June 23, 2004 is provided. Therein only U.S. patent No. 5,599,638 is considered with the remaining documents crossed out since the remaining references listed therein have previously been considered in the first IDS filed April 23, 2002. This change is made so that each reference cited is listed only once in the corresponding patent to be published and avoids duplicate listings of references upon publication.

### ***Allowable Subject Matter***

3. Claims 1, 2, 6-8, 10-13, 15-23 and 25-38 allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record appears to teach, fairly suggest or render obvious the invention of the claims listed above. In particular of the electrolyte membrane having a first proton conducting material and a second carbon dioxide conducting material organized and

Art Unit: 1745

arranged in one or more homogeneous fields in predetermined locations in the first material for conducting carbon dioxide gas from the anode chamber to the cathode chamber.

None of the prior art of record, alone or in combination, are held to reasonably suggest this arrangement as recited in the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
